Picnic & Party Stations

Looking for something truly unique and impactful for your next event?

- Choose from a variety of our highly exciting and empowering stations
- Each station includes 2 Guides that will provide safety and instruction for your guests
 - No previous experience or equipment necessary
 - Stations can be specific to adults, kids or both
 - Standard station includes up to 5 hours

Modern Archery - Compound Bows

Different from tradition archery with recurve bows, our compound bows all have sight pins for aiming and release aids (wraps around wrist and uses a trigger like a firearm) to provide a thrilling experience for our guests. There are few things more empowering for kids or adults than experiencing your arrow get closer to the bullseye with every shot!

Aerial Archery

Looking for a real challenge? Try hitting a moving target with a recurve bow and flu flu arrow! Yell "PULL" and get ready as our Laporte Machine hurls a circular, styrofoam disk up into the air. Targets can be shot individually or multiple participants can go at the same time in a contest of who can hit the target first. This is one station that your guests will be talking about for a long time afterwards!

Traditional Archery - Recurve Bows

Archery is all the craze these days! From TV shows, blockbuster movies and comic books, the traditional bow and arrow is becoming more popular than ever. Tap into your "inner Katniss" with our recurve bows. Simply pull back, aim the arrow and let it fly. There are few things more empowering for kids or adults than experiencing your arrow get closer to the bullseye with every shot!

*adult & youth models available

BB Guns

There are few brands more iconic in the outdoor industry than Daisy. The Daisy Red Ryder has provided fun for children since 1940! Many adults still remember their first Red Ryder from their childhood. From kids to adults, everyone will enjoy firing BB's at a variety of targets from breakable clays, cans, golf balls and bullseye targets. Pump up your gun and pull the trigger!

Crossbows

Looking for the ultimate thrill! Crossbows provide the accuracy of a firearm with the excitement of archery. Guests will have the opportunity to line up their target with a scope and watch as their arrow flies through the air at high speeds and pin-point accuracy. For the smaller kids, we have Daisy crossbows that are geared for youth. We dare you to pull the trigger and not crack a smile!

*adult & youth models available

Slingshots

Slingshots always provide tons of fun for audiences of all ages. The combination of simplicity and primitive feel makes the Takedown slingshot station a hit at any event. Grab your cup of BBs and try hitting a variety of targets that will test your aim!

Spears

Looking for the ultimate primitive activity? Nothing will bring out that “warrior spirit” in your guests more than throwing spears! Learn the history, functionality and technique to successfully hit the bullseye with our Assegai & Samburu Spears. This close range activity (10 yards), is safe enough to operate anywhere there is grass. Stand out with your guests by providing them with a truly unique and impactful experience!

*adult only

Takedown Cowboys

Everyone loves a cowboy and his horse! Our Takedown Cowboys bring their horses to interact with your group. Both kids and adults will have the opportunity to have their picture taken on a horse throughout your event. As a special treat, our cowboys will also put on a 10 minute horse show, multiple times, that will incorporate the history of the horse, some tricks and even a demonstration on shooting balloons from a mounted horse (if space and footing permits). This is definitely fun for the whole family!

*No projectiles are used in the shooting, just hot air
